What declining economy?

Say hello to your new best friend, the Gold Mattress from Italian mattress-maker Magniflex. Now you too can experience luxury snoozing on top of this 22-carat gold yarn-covered mattress with Magniflex's patented Memoform Core which will adapt to the shape of your body with a guaranteed 85% accuracy.

Magniflex reveals that the physical properties of your new golden mattress will make your sleeping experience anti-inflammatory, odor-free, anti-bacterial and anti-inflammatory. My, that is a lot of somethings, but I

suppose we should expect them with a price tag of \$24,000.
